

# Disentangling the brain web: a perspective from magnetoencephalography

24 – 25 June 2013

Rovereto, Italy

Center for  
Mind/Brain Sciences

CiMeC

UNIVERSITÀ DEGLI STUDI  
DI TRENTO

**The goal of the workshop is to bring together leading MEG researchers from Europe that in some manner integrate the aspect of “brain connectivity” in their research.**

**Although the main audience is restricted to CIMEC members and the invited speakers, a small amount of external participants can be accommodated. Please send a brief (max 250 words) abstract describing your proposed presentation and a CV to [nathan.weisz@unitn.it](mailto:nathan.weisz@unitn.it) by 30/03/2013. Unfortunately, travel and accomodation costs of these external speakers cannot be covered.**

#### **Confirmed Speakers:**

Björn Hoffman  
Gianluca Romani  
Jan-Mathijs Schoffelen  
Joachim Gross  
Joerg Hipp  
Karim Jerbi  
Laura Marzetti  
Mark Woolrich  
Markus Siegel  
Matias Palva  
Naza Castelanos  
Vladimir Litvak

#### **Organizers:**

Nathan Weisz  
Christoph Braun  
Ole Jensen
