

3° INTERNATIONAL CONFERENCE ON EEG MICROSTATES

September 15–18, 2026 Aurum, Pescara (Italy)

Microstate analysis has become a powerful tool to investigate brain function, cognition, and their alterations in neurological and psychiatric conditions. The conference will bring together leading experts to discuss methodological advances, theoretical frameworks, and translational applications.

IMPORTANT DATES

- Abstract Submission Opens: March 24
- Registration Opens: March 29
- Abstract Deadline: June 30
- Early Bird Deadline: July 20
